Migration Accelerator for moving to SharePoint Online

Make migration an opportunity, not a challenge

Migration Accelerator is a complete content migration tool specifically built to handle the complexity of migration from non-Microsoft and legacy Microsoft systems to SharePoint Online, SharePoint 2019 and hybrid SharePoint environments. It includes advanced features for source content analytics, intelligent content classification, metadata and taxonomy enrichment, security remodelling, content re-structuring and format/OCR conversion as part of migration to SharePoint. These features allow you to gain maximum value and make migration an opportunity to enrich content and make it more productive for your users.

Benefit throughout every stage of your migration to SharePoint

Before you migrate
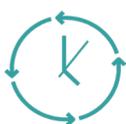

Actionable insights into content
Full discovery and analysis of your content with detailed drill-down reports using Power BI.

Identify potential issues
Stay on schedule and in budget with intelligent pre-migration checks to identify potential risks prior to migration.

While you migrate

Maintain business continuity
Minimise downtime thanks to high-speed, incremental migration and reusable scheduled tasks.

Seamlessly enforce compliance
Customisable rules give you the power to ensure compliance to your internal and industry standards.

Intelligently classify documents
Our AI engine uses machine learning to intelligently recognise and classify your business documents and data.

Automatically manage links
Automatically update links inside documents to keep them active post-migration; only with Migration Accelerator.

Transform how you work with content
With advanced OCR, image to PDF and other document format conversion.

High performance scalability
Migrate millions of items a day using our scalable, high-throughput engine.

After you migrate

Integrate your content portfolio
Sync or integrate multiple systems and repositories easily and quickly.

Improved user productivity
Exploit the potential of your content through optimised AI and searchability; turning it into a powerful business asset.

Exclusive benefits include:

- **Automated content restructuring**
- **Automated link resolution**
- **Full audit trail**
- **Smart content filtering**

Supported systems

SharePoint	OneDrive
Exchange Public Folders	CITRIX ShareFile
File Share	documentum by EMC
